Medicare Information

How do I become eligible for Medicare home health service?

You may arrange for our services following a consultation with your physician and a call to our agency office.

What requirements does Medicare have for home care services?

If you qualify for Medicare, Medicare pays for 100% of approved services furnished in your home if you meet certain requirements: you must be homebound or confined to your home and you must need skilled nursing care, physical therapy, occupational therapy, or speech therapy. These services can be provided in your home even if you have not been hospitalized.

What does Medicare pay for under the home health benefit?

- Visits by a nurse to give skilled care
- Visits by a Physical Therapist, Occupational Therapist, or Speech Therapist
- Home Health Aide Services
- Medical Supplies

What will Medicare not pay for under the home health benefit?

- Full-time nursing care
- Medications
- Personal comfort or convenience items
- Meals delivered to your home

Who can get Home Health Services?

- Any client who is under the care of a physician.
- A client who cannot leave home unassisted for required medical care.
- A client who has a need for skilled nursing care, physical, occupational or speech therapy services.
- Our staff can assist you in determining your insurance coverage and how we are able to best assist you.

How American Angels can help you?

Orthopedic Home Health Care from **American Angels** can have life-altering benefits. We send therapists, nurses, and other skilled professionals to your home to design and implement treatment and education plans that will protect your health long-term.

Consider **American angels** if:

- You've suffered a recent fall or are otherwise at risk of fall injuries.
- You have not yet regained maximum ability after a stroke or other challenge.
- You're recovering from hip replacement or knee replacement, or other orthopedic surgery.
- You have received a cardiopulmonary diagnosis and would benefit from therapy to help you increase endurance and fitness.
- You're dealing with a chronic condition such as arthritis and need help to restore mobility and reduce pain.
